

Build a guided Craps tutorial system using the specifications below.

GOAL

Teach Craps from basic play through advanced bets while showing the fewest possible table elements during each lesson.

The tutorial must:

1. Hide all betting areas not required for the current lesson.
2. Display instructions through short, sequential text boxes.
3. Highlight the exact control or betting area referenced by each text box.
4. Prevent interaction with betting areas outside the current lesson.
5. Wait for the required player action before advancing.
6. Use controlled dice results when a specific outcome is needed for teaching.
7. Restore normal random dice results during practice steps unless otherwise specified.
8. Allow each lesson to be replayed independently.
9. Track completed lessons.
10. Unlock the full table after the player finishes the core lessons.

TEXT BOX BEHAVIOR

Create one reusable tutorial text-box component.

Each text box should support:

- Title
- Body text
- Continue button
- Optional Back button
- Optional Skip Lesson button
- Optional pointer toward a table element
- Optional highlighted table element
- Optional requirement before Continue becomes active
- Optional automatic advancement after an action or dice result

Keep each text box brief. Do not place several rules into one text box.

When the player must perform an action:

- Disable the Continue button.
- Display the required action beneath the body text.
- Enable or automatically advance after the player completes the action.

Suggested action label format:

Required: Place a bet on the Pass Line.

TUTORIAL STEP DATA

Represent each tutorial step as structured data rather than hard-coded scene logic.

Each step should support fields similar to:

- lessonId
- stepId
- title
- body
- visibleElements
- enabledElements
- highlightedElements
- playerAction
- forcedRoll
- advanceCondition
- cleanupActions
- completionFlag

Use the project's existing naming conventions and architecture.

GLOBAL TABLE ELEMENT GROUPS

Create addressable groups for:

- Dice
- Roll button
- Chip controls
- Pass Line
- Pass Line Odds
- Come
- Come Odds
- Number Boxes
- Place controls
- Buy controls
- Field
- Hardways
- Proposition bets
- Hop bets
- Bonus bets
- Don't Pass
- Don't Pass Odds
- Don't Come
- Don't Come Odds
- Lay controls
- Point marker
- Bet On/Off controls

The tutorial manager must control the visibility and interactivity of each group separately.

LESSON 1: ROLLING THE DICE

Visible:

- Dice
- Roll button

Enabled:

- Roll button

Hidden:

- All betting areas
- Chip controls
- Point marker

Step 1

Title: Welcome to Craps

Body: Craps is a game built around the total of two dice.

Continue button advances immediately.

Step 2

Title: Dice Totals

Body: Each roll produces a total from 2 through 12.

Step 3

Title: Roll the Dice

Body: Press Roll to see your first dice total.

Required: Roll the dice.

Wait for the player to roll.

Step 4

Title: Your Roll

Body: The two dice are added together. Most bets win or lose based on this total.

Highlight the displayed roll total.

Step 5

Title: Lesson Complete

Body: Next, you will use those dice to make your first bet.

Mark Lesson 1 complete.

LESSON 2: THE PASS LINE

Visible:

- Dice
- Roll button
- Chip controls
- Pass Line

Enabled:

- Chip controls
- Pass Line

Hidden:

- All other betting areas
- Number Boxes
- Point marker

Reset the table before beginning.

Step 1

Title: The Pass Line

Body: The Pass Line is the standard starting bet in Craps.

Highlight the Pass Line.

Step 2

Title: Place Your Bet

Body: Place a chip on the Pass Line.

Required: Place a Pass Line bet.

Wait for a valid Pass Line bet.

Step 3

Title: The Come Out Roll

Body: The first roll of a new round is called the Come Out Roll.

Enable the Roll button.

Step 4

Title: Roll a Winner

Body: On the Come Out Roll, a 7 or 11 wins the Pass Line immediately.

Required: Roll the dice.

Force the result to 7.

Step 5

Title: Winner

Body: A 7 on the Come Out Roll wins your Pass Line bet.

Show the payout before advancing.

Step 6

Title: Try Again

Body: Place another Pass Line bet.

Reset for a new Come Out Roll.

Required: Place a Pass Line bet.

Step 7

Title: Another Winner

Body: An 11 also wins the Pass Line on the Come Out Roll.

Required: Roll the dice.

Force the result to 11.

Step 8

Title: Craps Numbers

Body: On the Come Out Roll, 2, 3, and 12 lose the Pass Line bet.

Step 9

Title: See a Losing Roll

Body: Place another Pass Line bet, then roll.

Force the result to 3 after the bet is placed.

Step 10

Title: Craps

Body: A 3 on the Come Out Roll loses the Pass Line bet.

Step 11

Title: Lesson Complete

Body: The Come Out Roll now has two clear outcomes: 7 or 11 wins, while 2, 3, or 12 loses.

Mark Lesson 2 complete.

LESSON 3: ESTABLISHING A POINT

Visible:

- Dice
- Roll button
- Chip controls
- Pass Line
- Number Boxes
- Point marker

Enabled:

- Chip controls

- Pass Line
- Roll button when appropriate

Hidden:

- All other betting areas

Reset the table before beginning.

Step 1

Title: Point Numbers

Body: A Come Out Roll of 4, 5, 6, 8, 9, or 10 establishes a Point.

Highlight all six Number Boxes.

Step 2

Title: Start a Round

Body: Place a bet on the Pass Line.

Required: Place a Pass Line bet.

Step 3

Title: Set the Point

Body: Roll the dice.

Required: Roll the dice.

Force the result to 6.

Step 4

Title: The Point Is 6

Body: The Point marker moves to 6. The round now continues until either 6 or 7 is rolled.

Highlight the 6 Number Box and Point marker.

Step 5

Title: Make the Point

Body: Your Pass Line bet wins if the Point rolls again before a 7.

Step 6

Title: Other Numbers

Body: Other dice totals do not resolve the Pass Line bet. The Point stays active.

Required: Roll the dice.

Force the result to 9.

Step 7

Title: The Round Continues

Body: A 9 does not affect this Pass Line bet. The Point is still 6.

Step 8

Title: Hit the Point

Body: Roll again.

Required: Roll the dice.

Force the result to 6.

Step 9

Title: Point Made

Body: You rolled the Point before a 7, so the Pass Line wins.

Show the payout and return the Point marker to Off.

Step 10

Title: Seven Out

Body: If a 7 rolls before the Point, the Pass Line loses. This is called a Seven Out.

Step 11

Title: See a Seven Out

Body: Place another Pass Line bet and establish a new Point.

Require a Pass Line bet.

Force the next roll to 8.

After the Point becomes 8, prompt the player to roll again.

Force the next roll to 7.

Step 12

Title: Seven Out

Body: The 7 arrived before the Point. The Pass Line loses, and a new round begins.

Step 13

Title: Lesson Complete

Body: Pass Line play follows one cycle: make a Come Out Roll, establish a Point, then roll the Point again before a 7.

Mark Lesson 3 complete.

LESSON 4: PASS LINE ODDS

Visible:

- Dice
- Roll button
- Chip controls
- Pass Line
- Pass Line Odds
- Number Boxes
- Point marker

Enabled:

- Pass Line
- Pass Line Odds when a Point is active
- Chip controls
- Roll button

Hidden:

- All other betting areas

Step 1

Title: Pass Line Odds

Body: After a Point is established, you may add an Odds bet behind your Pass Line bet.

Step 2

Title: Establish a Point

Body: Place a Pass Line bet and roll.

Force the Come Out Roll to 8.

Step 3

Title: Take Odds

Body: Place an additional chip in the Odds area behind your Pass Line bet.

Highlight the Pass Line Odds area.

Required: Place a Pass Line Odds bet.

Step 4

Title: Two Connected Bets

Body: Your original Pass Line bet and your Odds bet both depend on the Point.

Step 5

Title: True Odds

Body: The Odds bet pays according to the chance of rolling the Point before a 7.

Step 6

Title: Hit the Point

Body: Roll the dice.

Force the result to 8.

Step 7

Title: Two Payouts

Body: The Pass Line and Odds bets both win, but they use different payout rates.

Show each payout separately.

Step 8

Title: Lesson Complete

Body: Pass Line Odds add another wager after a Point is established.

Mark Lesson 4 complete.

LESSON 5: COME BETS

Visible:

- Dice
- Roll button
- Chip controls
- Pass Line
- Come
- Come Odds
- Number Boxes
- Point marker

Enabled:

- Pass Line
- Come after the table Point is established
- Come Odds after a Come bet moves to a number
- Chip controls
- Roll button

Hidden:

- All other betting areas

Step 1

Title: Come Bets

Body: A Come bet follows the same rules as the Pass Line, but it begins after the table Point is already active.

Step 2

Title: Establish the Table Point

Body: Place a Pass Line bet and roll.

Force the Come Out Roll to 8.

Step 3

Title: Place a Come Bet

Body: Place a chip in the Come area.

Highlight Come.

Required: Place a Come bet.

Step 4

Title: A Personal Come Out Roll

Body: The next roll acts like a Come Out Roll for this Come bet.

Step 5

Title: Come Bet Outcomes

Body: A 7 or 11 wins the Come bet. A 2, 3, or 12 loses it. Any Point number moves the bet to that number.

Step 6

Title: Move the Come Bet

Body: Roll the dice.

Force the result to 5.

Step 7

Title: Come Point of 5

Body: The Come bet moves to 5. It now wins if 5 rolls before 7.

Animate the chip moving from Come to 5.

Step 8

Title: Come Odds

Body: You may place Odds behind a Come bet after it moves to a number.

Highlight the Come Odds position associated with 5.

Required: Place Come Odds on 5.

Step 9

Title: Multiple Points

Body: The table Point is still 8, while your Come bet has its own Point of 5.

Highlight 8 and 5 separately.

Step 10

Title: Resolve the Come Bet

Body: Roll the dice.

Force the result to 5.

Step 11

Title: Come Bet Winner

Body: The 5 wins both the Come bet and its Odds. The Pass Line remains active on 8.

Show the Come and Come Odds payouts without resolving the Pass Line.

Step 12

Title: Lesson Complete

Body: A Come bet creates another Pass Line-style bet while the original round continues.

Mark Lesson 5 complete.

LESSON 6: PLACE BETS

Visible:

- Dice
- Roll button
- Chip controls
- Number Boxes
- Place controls

Enabled:

- Number Boxes
- Place controls
- Chip controls
- Roll button

Hidden:

- Pass Line
- Pass Line Odds
- Come
- Come Odds
- All unrelated betting areas
- Point marker unless required by the game's normal state

Step 1

Title: Place Bets

Body: A Place bet lets you choose a number directly.

Highlight 4, 5, 6, 8, 9, and 10.

Step 2

Title: Choose a Number

Body: Place a bet on 6.

Required: Place a valid Place bet on 6.

Step 3

Title: Winning a Place Bet

Body: Your Place bet wins whenever 6 rolls before 7.

Step 4

Title: Unrelated Rolls

Body: Other numbers do not affect this bet.

Required: Roll the dice.

Force the result to 9.

Step 5

Title: Still Working

Body: The 9 does not affect your Place bet on 6.

Step 6

Title: Hit Your Number

Body: Roll again.

Force the result to 6.

Step 7

Title: Place Bet Winner

Body: The 6 rolled, so your Place bet wins.

Keep the Place bet active after paying unless the game rules remove winning Place bets.

Step 8

Title: The Losing Number

Body: All active Place bets lose when a 7 rolls.

Step 9

Title: Seven Out

Body: Roll again.

Force the result to 7.

Step 10

Title: Place Bets Removed

Body: The 7 removes your Place bet.

Step 11

Title: Lesson Complete

Body: Place bets win when the selected number rolls before 7.

Mark Lesson 6 complete.

LESSON 7: TURNING BETS ON AND OFF

Visible:

- Dice
- Roll button
- Chip controls
- Number Boxes
- Place controls
- Bet On/Off controls

Enabled:

- Place controls
- Bet On/Off controls
- Roll button

Hidden:

- All unrelated betting areas

Step 1

Title: Working Bets

Body: A working bet is active on the next roll.

Step 2

Title: Place a Bet

Body: Place a bet on 6.

Required: Place a Place bet on 6.

Step 3

Title: Turn the Bet Off

Body: Use the Off control to make the bet inactive.

Required: Turn the Place bet on 6 Off.

Step 4

Title: An Inactive Bet

Body: An Off bet does not win or lose until it is turned back On.

Step 5

Title: Roll While Off

Body: Roll the dice.

Force the result to 6.

Step 6

Title: No Action

Body: The 6 rolled, but the bet was Off, so no payout occurs.

Step 7

Title: Turn It Back On

Body: Turn the Place bet back On.

Required: Turn the Place bet on 6 On.

Step 8

Title: Roll While Working

Body: Roll again.

Force the result to 6.

Step 9

Title: Active Winner

Body: The bet was working, so the 6 pays.

Step 10

Title: Lesson Complete

Body: Use On and Off controls to choose whether a persistent bet is active.

Mark Lesson 7 complete.

LESSON 8: BUY BETS

Visible:

- Dice
- Roll button
- Chip controls
- Number Boxes
- Buy controls

Enabled:

- Buy controls
- Chip controls
- Roll button

Hidden:

- Place controls
- All unrelated betting areas

Step 1

Title: Buy Bets

Body: A Buy bet also wagers on a number rolling before 7.

Step 2

Title: Buy the 4

Body: Place a Buy bet on 4.

Required: Place a valid Buy bet on 4.

Step 3

Title: Buy Bet Payouts

Body: Buy bets use true odds, with a commission charged according to the table rules.

Step 4

Title: Roll a Winner

Body: Roll the dice.

Force the result to 4.

Step 5

Title: Buy Bet Winner

Body: The 4 rolled before 7, so the Buy bet wins.

Display the gross payout, commission, and final payout separately if the game exposes those values.

Step 6

Title: Lesson Complete

Body: Buy bets trade a commission for a different payout structure.

Mark Lesson 8 complete.

LESSON 9: THE FIELD

Visible:

- Dice
- Roll button
- Chip controls
- Field

Enabled:

- Field
- Chip controls
- Roll button

Hidden:

- All other betting areas

Step 1

Title: The Field

Body: The Field is a one-roll bet.

Step 2

Title: Winning Numbers

Body: The Field wins on 2, 3, 4, 9, 10, 11, or 12.

Highlight those totals in the Field layout.

Step 3

Title: Losing Numbers

Body: The Field loses on 5, 6, 7, or 8.

Highlight those totals using the game's losing-state treatment.

Step 4

Title: Place a Field Bet

Body: Place a chip in the Field.

Required: Place a Field bet.

Step 5

Title: One Roll Only

Body: The bet resolves on the next roll.

Force the result to 10.

Step 6

Title: Field Winner

Body: A 10 wins the Field bet.

Step 7

Title: Try a Losing Roll

Body: Place another Field bet.

Require a new Field bet.

Force the next result to 6.

Step 8

Title: Field Loss

Body: A 6 loses the Field bet.

Step 9

Title: Lesson Complete

Body: Every Field bet lasts for one roll.

Mark Lesson 9 complete.

LESSON 10: HARDWAYS

Visible:

- Dice
- Roll button
- Chip controls
- Hardways

Enabled:

- Hardways
- Chip controls
- Roll button

Hidden:

- All other betting areas

Step 1

Title: Hardways

Body: A Hardway bet wins when an even total is rolled as a matching pair.

Step 2

Title: Hard 6

Body: Hard 6 means rolling 3 and 3.

Highlight Hard 6.

Step 3

Title: Place the Bet

Body: Place a bet on Hard 6.

Required: Place a Hard 6 bet.

Step 4

Title: Roll It the Hard Way

Body: Roll the dice.

Force the dice to 3 and 3.

Step 5

Title: Hardway Winner

Body: The total is 6, and both dice match. Hard 6 wins.

Step 6

Title: The Easy Way

Body: Hard 6 loses if 6 appears as 1 and 5 or 2 and 4.

Step 7

Title: See an Easy 6

Body: Place another Hard 6 bet, then roll.

Force the dice to 2 and 4.

Step 8

Title: Hardway Loss

Body: The total is 6, but the dice do not match. Hard 6 loses.

Step 9

Title: Seven Also Loses

Body: A 7 also removes active Hardway bets.

Step 10

Title: Lesson Complete

Body: Hardways require doubles before an easy version of the number or a 7.

Mark Lesson 10 complete.

LESSON 11: PROPOSITION BETS

Visible:

- Dice
- Roll button
- Chip controls
- Proposition bets

Enabled:

- Proposition bets
- Chip controls
- Roll button

Hidden:

- All other betting areas

Present only the proposition bets supported by the game.

Step 1

Title: Proposition Bets

Body: Proposition bets predict the result of the next roll.

Step 2

Title: One-Roll Bets

Body: Each proposition bet wins or loses immediately after one roll.

Step 3

Title: Choose a Proposition

Body: Place a bet on Any 7.

Required: Place an Any 7 bet.

Step 4

Title: Resolve the Bet

Body: Roll the dice.

Force the result to 7.

Step 5

Title: Any 7 Wins

Body: The next roll was 7, so the bet wins.

Step 6

Title: Higher Risk

Body: Proposition bets often offer larger payouts because they win less frequently.

Step 7

Title: Lesson Complete

Body: Proposition bets are short-term wagers on specific roll results.

Mark Lesson 11 complete.

LESSON 12: HOP BETS

Visible:

- Dice
- Roll button
- Chip controls
- Hop bets

Enabled:

- Hop bets
- Chip controls
- Roll button

Hidden:

- All other betting areas

Step 1

Title: Hop Bets

Body: A Hop bet predicts the exact dice combination on the next roll.

Step 2

Title: Choose a Combination

Body: Place a Hop bet on 3 and 4.

Required: Place the supported 3-4 Hop bet.

Step 3

Title: Exact Dice

Body: The next roll must show a 3 and a 4 for this bet to win.

Step 4

Title: Roll the Dice

Body: Roll now.

Force the dice to 3 and 4.

Step 5

Title: Hop Winner

Body: The exact combination appeared, so the Hop bet wins.

Step 6

Title: Doubles

Body: Hop bets on doubles usually use a different payout because there is only one matching combination.

Only include this text if supported by the game's payout implementation.

Step 7

Title: Lesson Complete

Body: Hop bets last one roll and depend on the exact faces of both dice.

Mark Lesson 12 complete.

LESSON 13: BONUS BETS

Visible:

- Dice
- Roll button
- Chip controls
- Bonus bets

Enabled:

- Bonus bets
- Chip controls
- Roll button

Hidden:

- All other betting areas

Use the exact bonus bets present in the game.

Step 1

Title: Bonus Bets

Body: Bonus bets track a series of results across several rolls.

Step 2

Title: Longer Objectives

Body: Unlike one-roll bets, a Bonus bet may stay active through many rolls.

Step 3

Title: Choose a Bonus Bet

Body: Place a bet on the highlighted Bonus area.

Highlight the introductory Bonus bet.

Required: Place the highlighted Bonus bet.

Step 4

Title: Track Progress

Body: Each qualifying roll marks progress toward the Bonus.

Use controlled rolls to mark two or three qualifying results.

Step 5

Title: The Seven

Body: A 7 usually ends unfinished Bonus bets.

Adjust this wording to match the implemented Bonus rules.

Step 6

Title: Lesson Complete

Body: Bonus bets reward completing a collection of results before the losing condition occurs.

Mark Lesson 13 complete.

LESSON 14: DON'T PASS

Place all dark-side betting lessons after Bonus Bets.

Visible:

- Dice
- Roll button
- Chip controls
- Don't Pass
- Number Boxes
- Point marker

Enabled:

- Don't Pass
- Chip controls
- Roll button

Hidden:

- Pass Line
- Come
- Don't Come
- Place
- Buy
- Lay
- All unrelated betting areas

Step 1

Title: Don't Pass

Body: The Don't Pass bet wagers against the shooter making the Point.

Step 2

Title: Come Out Roll

Body: On the Come Out Roll, 2 or 3 wins the Don't Pass bet.

Step 3

Title: Come Out Losses

Body: A 7 or 11 loses the Don't Pass bet.

Step 4

Title: The 12

Body: A 12 is a push on most Don't Pass tables. Your bet is returned with no win or loss.

Use the game's configured rule if different.

Step 5

Title: Place a Don't Pass Bet

Body: Place a chip on Don't Pass.

Required: Place a Don't Pass bet.

Step 6

Title: Establish a Point

Body: Roll the dice.

Force the result to 6.

Step 7

Title: Betting Against the Point

Body: With a Point established, Don't Pass wins if 7 rolls before the Point.

Step 8

Title: Win With 7

Body: Roll again.

Force the result to 7.

Step 9

Title: Don't Pass Winner

Body: The 7 arrived before the Point, so the Don't Pass bet wins.

Step 10

Title: Lesson Complete

Body: Don't Pass reverses the main objective after a Point is established.

Mark Lesson 14 complete.

LESSON 15: DON'T COME

Visible:

- Dice
- Roll button
- Chip controls
- Don't Pass
- Don't Come
- Don't Come Odds
- Number Boxes
- Point marker

Enabled:

- Don't Pass
- Don't Come after a table Point is active
- Don't Come Odds after the bet moves
- Chip controls
- Roll button

Hidden:

- Pass Line
- Come
- Place
- Buy
- Lay
- All unrelated betting areas

Step 1

Title: Don't Come

Body: A Don't Come bet works like Don't Pass after the table Point is already active.

Step 2

Title: Establish the Table Point

Body: Place a Don't Pass bet and roll.

Force the result to 8.

Step 3

Title: Place a Don't Come Bet

Body: Place a chip in the Don't Come area.

Required: Place a Don't Come bet.

Step 4

Title: A Separate Come Out Roll

Body: The next roll acts as a personal Come Out Roll for the Don't Come bet.

Step 5

Title: Move the Bet

Body: Roll the dice.

Force the result to 5.

Step 6

Title: Don't Come Point of 5

Body: The Don't Come bet moves behind 5. It wins if 7 rolls before 5.

Animate the chip moving to the Don't Come position associated with 5.

Step 7

Title: Don't Come Odds

Body: You may add Odds to a Don't Come bet after it moves to a number.

Use the project's correct terminology if the interface calls this laying Odds.

Required: Place Odds behind the Don't Come bet on 5.

Step 8

Title: Resolve the Bet

Body: Roll the dice.

Force the result to 7.

Step 9

Title: Don't Come Winner

Body: The 7 rolled before 5, so the Don't Come bet and its Odds win.

Step 10

Title: Lesson Complete

Body: Don't Come creates another Don't Pass-style wager during an active round.

Mark Lesson 15 complete.

LESSON 16: LAY BETS

Visible:

- Dice
- Roll button
- Chip controls
- Number Boxes
- Lay controls

Enabled:

- Lay controls
- Chip controls
- Roll button

Hidden:

- Don't Pass
- Don't Come
- Pass Line
- Come
- Place
- Buy
- All unrelated betting areas

Step 1

Title: Lay Bets

Body: A Lay bet wins when 7 rolls before the selected number.

Step 2

Title: The Opposite of a Buy Bet

Body: Buy bets want the number before 7. Lay bets want 7 before the number.

Step 3

Title: Lay Against 4

Body: Place a Lay bet against 4.

Required: Place a valid Lay bet against 4.

Step 4

Title: Winning the Lay Bet

Body: This bet wins if 7 rolls before 4.

Step 5

Title: Roll a Winner

Body: Roll the dice.

Force the result to 7.

Step 6

Title: Lay Bet Winner

Body: The 7 arrived before 4, so the Lay bet wins.

Show any commission separately.

Step 7

Title: Lesson Complete

Body: Lay bets wager on 7 arriving before a chosen number.

Mark Lesson 16 complete.

FINAL LESSON: THE FULL TABLE

Visible:

- All table elements

Enabled:

- No betting elements until the final message is dismissed
- Enable the full table after tutorial completion

Step 1

Title: The Full Craps Table

Body: The complete table contains every betting area introduced during the tutorial.

Reveal table groups in stages rather than all at once.

Step 2

Title: Line Bets

Body: Pass, Come, Don't Pass, and Don't Come follow the Point system.

Highlight those areas.

Step 3

Title: Number Bets

Body: Place, Buy, and Lay bets target the individual number boxes.

Highlight those areas.

Step 4

Title: Single-Roll Bets

Body: Field, Proposition, and Hop bets resolve on the next roll.

Highlight those areas.

Step 5

Title: Persistent Side Bets

Body: Hardways and Bonus bets may remain active across several rolls.

Highlight those areas.

Step 6

Title: Tutorial Complete

Body: You now know how each major section of the table works. Choose the bets you prefer and play at your own pace.

Required: Press Finish Tutorial.

After completion:

- Mark the complete tutorial finished.
- Restore normal dice randomness.
- Remove tutorial interaction restrictions.
- Show the full table.
- Save completion status.
- Return the player to the normal game state.

IMPLEMENTATION RULES

1. Do not rely on forced dice outcomes outside tutorial mode.
2. Clearly separate forced tutorial rolls from the normal random-roll system.
3. Ignore input on hidden or disabled betting areas.
4. Prevent the player from placing incorrect bets during required-action steps.
5. Provide a brief error prompt when the player selects the wrong area.

Suggested error text:

Place your chip on the highlighted betting area to continue.

1. Use pulsing highlights sparingly.
2. Remove a highlight as soon as the associated action is completed.
3. Do not display more than one primary highlighted betting area unless comparing related areas.
4. Pause tutorial progression until payout and chip-movement animations finish.
5. Clear all tutorial-created bets when beginning a new lesson.
6. Preserve the player's normal bankroll unless the project already uses a separate tutorial bankroll.
7. Prefer a separate tutorial bankroll so forced examples do not affect normal progression.
8. Add developer controls for:
 9. Jump to lesson
 10. Jump to step
 11. Restart lesson
 12. Complete current action

13. Trigger expected forced roll
14. Show all table element group names
15. Reset tutorial completion data

ACCESSIBILITY

- Display all spoken instruction as text.
- Do not depend on color alone for highlighting wins, losses, active bets, or disabled areas.
- Support controller, mouse, and keyboard input.
- Keep text boxes clear of the highlighted table area when screen space permits.
- Allow text size to follow the game's accessibility settings.
- Pause automatic advancement while the game is paused.
- Provide a setting to disable automatic text advancement.

ACCEPTANCE CRITERIA

The implementation is complete when:

1. Every lesson runs from beginning to end without manual developer intervention.
2. Only lesson-relevant table elements are visible.
3. Each required action validates correctly.
4. Every forced roll produces the requested total or exact dice combination.
5. Bets move, pay, lose, and clear according to the tutorial script.
6. Lessons may be replayed independently.
7. Tutorial completion persists after restarting the game.
8. Completing or skipping the tutorial restores the normal table and random dice behavior.
9. Don't Pass, Don't Come, and Lay lessons appear after Bonus Bets.
10. Come Bets appear immediately after Pass Line and Pass Line Odds instruction.
